

The Open Science Workspace for Collaborative Data-driven Discovery

Practical Help to Manage Your Data Store

Jason Williams

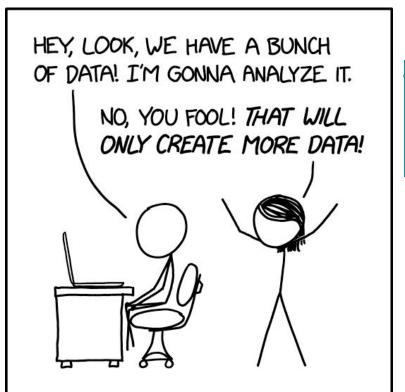

Cold Spring Harbor Laboratory, DNA Learning Center / CyVerse

@JasonWilliamsNY

The cause of and solution to all our problems...

CREDIT: https://xkcd.com/2582/

Big data, bigger problems

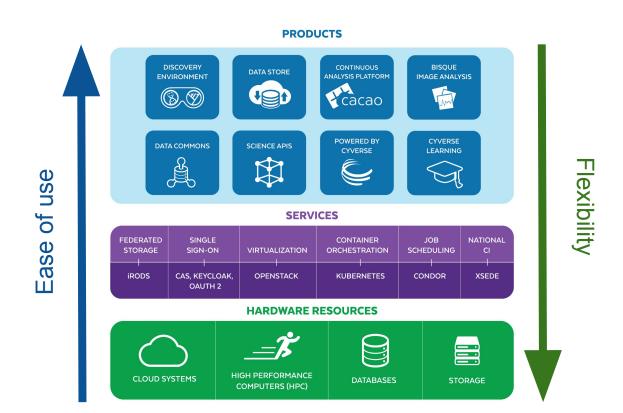

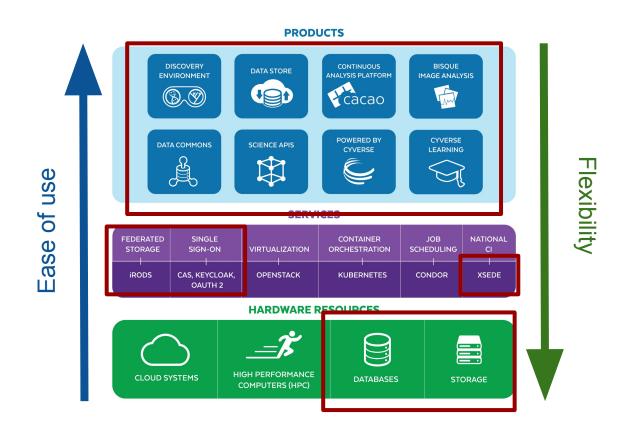

- Difficult / slow transfers
- Expense for storage / backup
- Difficult to share and publish
- Analysis
- Metadata (What Is metadata?)

CyVerse Technology Stack

CyVerse Technology Stack

A secure data storage and management service accessible from anywhere in the CyVerse ecosystem

Securely manage your data across its entire lifecycle

A secure data storage and management service accessible from anywhere in the CyVerse ecosystem

- Securely manage your data across its entire lifecycle
- Automatic backup

A secure data storage and management service accessible from anywhere in the CyVerse ecosystem

- Securely manage your data across its entire lifecycle
- Automatic backup
- Numerous ways to upload/download/share

A secure data storage and management service accessible from anywhere in the CyVerse ecosystem

- Securely manage your data across its entire lifecycle
- Automatic backup
- Numerous ways to upload/download/share
- Based on open source IRODS technology

Data Storage Tiers

	Basic (free)	Regular	Pro	Commercial
Data storage limit	5GB	50GB	3ТВ	5TB

cyverse.org/subscribe

Q: How do I know how much data I am using?

Q: How do know how much data I am using?

A: Login to the Discovery Environment Dashboard

Q: What happens if I hit my storage limit?

Q: What happens if I hit my storage limit?

A: You won't be able to add new data

Q: What happens if I hit my storage limit?

Options:

- 1. Delete some data
- 2. Upgrade your data tier

Q: How can I tell how much data is in a folder?

A: See Cyberduck

Cyberduck

Start Using the Discovery Environment Now! de.cyverse.org

DATA & ANALYSIS

- 5 GB free data storage
- 100s open-source scientific apps
- Containers and notebooks
- Visualize & interact with data

YOUR WORKSPACE

- Manage and share data
- Perform analysis with your own or community datasets
- Do large-scale science from your web browser
- Build and customize apps

COLLABORATION

- Secure, shared workspace for your team
- Reproducibility tools
- Manage the data lifecycle
- Make data more FAIR
- Open your science

LEARN, TEACH & TRAIN

- Tutorials and documentation
- Webinars
- Workshops
- Teach using CyVerse

COMMUNITY

- Join 95K+ users
- In-app chat support
- Find publicly available data
- Share data and analyses
- Deploy your own CyVerse
